End-of-day drawdown	FTMO, Apex Trader Funding, Earn2Trade, Alpha Futures, FundedNext Futures, Topstep, Lucid Trading, Bulenox

DRAWDOWN TYPES, EXPLAINED

Static

The loss floor is fixed from your starting balance and never moves. Most forgiving.

End-of-day (EOD) trailing

The floor moves up only at the daily close, based on closing balance. Intraday spikes don't raise it.

Intraday / real-time trailing

The floor follows your highest equity in real time, including open profit. Strictest: giving back open profit can breach you.

CONSISTENCY RULES

Breakout (Kraken)	None
Crypto Fund Trader	BREAK funded: 40% at payout; none in evaluation
FTMO	1-Step: Best Day Rule 50%
Apex Trader Funding	Not applied in evaluation
E8 Markets	40%
Earn2Trade	30% in evaluation; none on funded accounts
Alpha Futures	Eval: Zero none, Standard 50%, Advanced 40%
FundedNext Futures	Flex challenge 40%; funded none
Topstep	Best day must be $\leq 55\%$ of total profit or the profit target rises
Lucid Trading	50% in evaluation; none on funded
Take Profit Trader	Best day must be under 50% of net profit or the profit goal rises
Tradeify	Select: 40%; Growth: none (per Select evaluation page)
MyFundedFutures	Builder: none; Rapid EOD: 30%; Flex and Pro: 50%
